ABOUT THE FILIPINO AMERICAN NETWORK

What does it mean to be a young American adult of Filipino descent? What does it mean to be a young Filipino adult in America? The Filipino American Network (FAN) recognizes that our generation has greatly differing needs, challenges and experiences. FAN also recognizes that we have many gifts and resources to offer to both our Filipino and American communities.

We seek to call, challenge and serve fellow young Filipino American adults by providing resources and connections that will enrich their lives, support their growth and deepen their self-awareness of our Filipino heritage.
